

Center for Spiritual Living, Davis presents

**Create Your Own Economy:
A Financial Visioning Workshop**
Facilitated by Rai Jordan, RScP

**Sunday, May 24, 2009
1:00 pm - 4:00 pm**

**Are you ready to experience
a greater flow of financial
good in your life?**

**Create your own economy through the
transforming power of vision and visioning**

In metaphysics it is often said that money is the easiest thing to manifest. Yet it can also be an area of life where limiting beliefs can have the strongest hold on us. The truth is that you have within you everything you need to prosper in any economic climate, including the one we are currently in.

- **Learn** the fundamentals of the visioning process, how it works and how it is different than visualization.
- **Activate** a higher vision of wealth, success and a meaningful sense of purpose in your life.
- **Liberate** yourself from lack and struggle and create your own economy.
- **Awaken** divine clarity and insight; unleash the creativity and power that lies within you.

There is a power working for you that is greater than any power that can be against you.
